Projects

FOMO - React Native App

Sept. - Dec. 2025

- Collaborated in a 7-person **Agile/Scrum** team to develop a social media mobile application, practicing pair programming and iterative sprint development.
- Designed the entire UI/UX in **Figma**, translating design prototypes into a production-ready interface with **React Native**.
- Developed frontend components and assisted in creating **API routes** for communication with backend endpoints.

Radiant Exterior Services - Static Website

April 2025

- Designed a modern, responsive static website layout tailored to the home service industry.
- Captured **7 new leads** in the first 2 months, creating a consistent client pipeline beyond word-of-mouth and Facebook.
- Collaboration with a small business client to align technical decisions with branding goals.

Experience

DigiKey

Thief River Falls, MN

Incoming Front-end Developer Intern

Summer 2026

Web Designer

Menomonie, WI

Freelance

April - Sept 2025

- Developed and deployed responsive static websites for multiple small businesses, delivering fast, **SEO**-optimized user experiences.
- Built conversion-focused landing pages and **UI** components that improved client lead generation.
- Collaborated directly with stakeholders to translate business goals.
